

## **ABBOTS HALL OUT OF SCHOOL CLUB**

### **EXTREME WEATHER POLICY**

Should the School be closed due to extreme weather, or teachers not being able to access the school because of road closures. Staff will endeavour to reach the school while maintaining their own safety.

When a senior staff member has reached the school they will assess the situation and inform parents if the club will open for Holiday club hours, or a certain time limit.

Staff will monitor the weather and keep parents informed of any changes via calls or text.

If the school has no heating and the weather is freezing cold then all parents will be informed that we will have to close due to temperatures and no heating.

If the school has no running water we will contact all parents and inform them the club will be closed.

We will send out a test text each school term from the club phone to ensure we have all parents Telephone numbers updated and correct.

We will endeavour to give parents as much notice as possible of any closures or changes to settings opening hours.
