

ABBOTS HALL OUT OF SCHOOL CLUB

SCHOOL LOCKDOWN

If the school is locked down for any reason, we will lock the main doors and any other doors leading to the area in which the children are situated.

Will move the children in to the main hall area away from any doors or windows, a staff member will be in direct contact with the school, keeping us up to date with information and changes in the situation at hand.

Keeping the children safe and secure is our main priority in any situation that might involve any form of danger.

We will contact all parents giving as much information as we can about what is, and once we have the all clear by the school or the emergency services we will then contact parents with advice and information on how they can collect their children from the windmill room.

Thank you for your understanding should the need arise.
